WOMAN FACES AUTO MURDER CHARGE

DRIVER OF CAR HELD DRUNK

MODESTO, June 1. (U.P.)—Believed to be the first time in the history of California motor accidents, a woman was charged with murder here today for the hit run killing last night of Mrs. G. A. Howe, 55, prominent locally.

The murder charged was preferred against Mrs. Donald P. McNeil by District Attorney R. R. Fowler, when Ward Howe, son of the victim appeared before him and made a request that the more serious charge be made instead of one of manslaughter, originally made by police.

Police records showed Mrs. McNeil was intoxicated.

The woman was taken into custody by police last night. With her was Mrs. Catherine Rahill, of this city, who is being held under \$10,000 bail on a charge of failing to stop and render aid.

According to H. T. Rockwell, of this city and C. P. Richards, of Portland, they stopped their car to permit Mrs. Howe to cross the street. The car driven by Mrs. McNeil sped around their machine and hit Mrs. Howe. The two women failed to stop but witnesses supplied a description of their machine and they were taken into custody at the McNeil home.

Both women were still too intoxicated to be questioned today, police said.

TWO SLAIN IN 'HEX' MURDER

YAHOLA, Okla., June 1. (U.P.)—A negro who heeded "the voice of spirits that had been bothering him two years" and shot to death two men, late today lay near death in a Muskogee hospital as the result of his supernatural command.

Tobe Boyd, the negro, early to work invaded the home of W. E. Stewart and accused the merchant of being the cause of his "hex." He shot Stewart to death and attempted to break into the bedroom where Mrs. Stewart and her children lay sleeping. Mrs. Stewart fled, screaming.

Carl Churchill, a neighbor, was aroused. He ran to the Stewart home and left before a volley of shots fired by the negro, who ran amuck. He was killed instantly. Deputy Sheriff Gus Whitaker was summoned by the panic stricken neighbors. He surprised Boyd and shot him down.

Davis Cup Team To Sail Wednesday

NEW YORK, June 1. (U.P.)—The United States Davis Cup team which sails for Europe on Wednesday will be the youngest to nine years of international competition for the trophy.

This year's team is composed of that aged veteran, John Hennessey of Indianapolis, who is 28; Wilmer Allison, Fort Worth, 24; George Lott, Chicago, 23; and John Van Ryn, Orange, N. J., 23. Lott may not sail with the others but will catch a later boat in time to participate in the interzone finals if needed.

E. Martinovich Home From Fresno

Louis Martinovich, proprietor of the Key Lunch room returned to Richmond yesterday from Fresno where he spent his vacation visiting friends.

Truck Driver To President

C. J. CONDON of Chicago, who although only 30 has worked his way from truck driver to presidency of Parmelee company.

FLOOD WATERS RECEDING IN SOUTHWEST

Floods, which have resulted in millions of dollars property damage throughout Texas, Oklahoma, Kansas, and Nebraska, were receding slowly today. Additional showers were forecast for tonight throughout the district, but the danger to life was believed to be past and the likelihood of additional property damage was slight. Although numerous rumors of flood deaths were prevalent, a check of the area definitely revealed that the loss of life had not exceeded two.

At Falls City, Neb., three persons said they saw a small boy swept away by flood waters. The (Continued on Page 5)

KING PASSES 'QUIET' DAY

WINDSOR, Eng., June 1. (U.P.)—Sufficient improvement has been noted in the condition of King George by his physicians to warrant the discontinuance of daily bulletins, the doctors announced today, asserting that the absence beneath the scar of the old operation is so far following a normal, but without tedious, course.

"The king passed a good day," the official bulletin, signed by Doctors Henry L. Martyn, Dawson of Penn., and Sir Stanley Hewitt, stated. "The absence so far is following a normal course which in the nature of things must be tedious. We accordingly advise that the thanksgiving service should be deferred to a later date. As his majesty's condition is now satisfactory, there is no necessity for the issuance of bulletins every day."

It is reliably stated that the king has been confined to his bed since Monday, although the report of his new illness was not made known until Thursday night after his illness.

FREIGHTER LOADS OIL

The Japanese freighter Venice Maru of the Japanese Kline is loading petroleum products for the Orient.

Next Thursday the Dan Hanlon of the Nelson line will arrive at the wharves and on June 11 the Silver Guava will load.

NATURAL GAS WAR OPENED IN COUNTY

Officials of the Pacific Gas and Electric company and the Western Natural Gas company, a California organization with Texas principals today are laying plans for what appears to be a battle between the two corporations for control of the natural gas industry in the Contra Costa county area.

The battle was presaged when the Western company petitioned the state railroad commission yesterday for permission to lay a 200-mile pipe line, 18 inches in diameter from the Kettleman Hills district in Kern county to Richmond and other Contra Costa county towns, with side lines to Sacramento, Stockton, Merced and Lodi.

The petition declared that the cost of the gas carrying system will be between \$8,000,000 and \$9,000,000.

P. G. E. Enters Fight
The petition was the immediate signal for the Pacific Gas and Electric company to file an amended petition with the state railroad commission asking permission to enter the same territories mentioned by the competitor.

The revenues to be derived from the sale of gas for industrial and domestic uses in the industrial centers of Richmond, Antioch, Crockett and Pittsburg are believed to be the factor behind the move of the western gas company.

Plans for a gas system that would cost about \$9,000,000 have already been laid by the Pacific Gas and Electric company which would serve San Francisco and the east bay with gas from the Kettleman and Patton Willow fields whose supplies are said to be nearly inexhaustible.

To Serve County

The amended petition asks permission to lay 162 additional miles of 22-inch pipe at an additional cost of \$5,000,000 to serve the Contra Costa county points and Merced, Stanislaus and San Joaquin county points as well. The cities of Merced and Stockton are specifically mentioned.

The P. G. and E. amendment was filed by A. F. Hockenbecker, president of the corporation, in person. Paul Kayers, president of the Western Gas company, filed the petition for his company.

Standard Oil Gas
It was announced the both firms plan to get a majority of their gas from the Standard Oil company. The Maryland Oil company is also mentioned by the Western gas firm.

The same interests behind the Western Natural Gas company have also financed the El Paso Natural Gas company has just completed construction of gas lines from Lea county, New Mexico, to El Paso, Tex., at a cost of \$7,000,000.

Death Driver To Face Court Monday

OAKLAND, June 1.—Charged with manslaughter and driving while intoxicated, Frank Cengotta of San Francisco, alleged driver of the automobile which sent the William Guerts' machine hurtling into the bay from the Berkeley ferry causeway, will go on trial in the court of Superior Judge Fred V. Wood in Oakland Wednesday.

Guerts and two children were drowned. Mrs. Guerts and one daughter were rescued from the bay after the car had plunged into the waters.

Rumors circulated that prosecution of Cengotta had been dropped were declared by District Attorney Earl Warren's office to be unfounded.

She Knows Her Words

VIRGINIA HOGAN of Omaha, who won first prize of \$1000 in national spelling bee at Washington D. C.

CARDS FIRST, U. S. C SECOND IN 4A MEET

FRANKLIN FIELD, Philadelphia, June 1. (U.P.)—Track and field supremacy will remain on the Pacific coast for at least another year.

The powerful well balanced Stanford track team made sure of that here today, winning the fifty third annual intercollegiate association of Amateur Athletes of America championship with a total of 45 3-8 points, more than twice the total of any of the other 31 teams in competition. To make the supremacy of the west even more certain, the University of Southern California won second honors with a total of 21 points.

The east had to be content with the third place, won by the University of Pennsylvania. The red and blue squad, host to the championships, totaled 17 7-8 points.

The University of California, the third east team in the meet, although represented only by five men, scored 11 points to the Pittsburgh for sixth place.

NEW CHARTER MEET MONDAY

Monday night at the Labor temple there will be a mass meeting of those in favor of having a new charter framed for the City of Richmond. The temporary chairman of the last meeting was E. B. Lowery, and the temporary secretary Scott R. Welsh.

At this meeting the permanent officers of the organization will be selected.

Local Man To Face Mann Act Charge In East

John K. Wilson, of the Richmond Hotel, was turned over to federal authorities to be taken to Harrisburg, Penn., to face charges of violation of the Mann act.

Wilson was arrested by Inspector Oliver Wylie yesterday and was held in the city jail until removed to San Francisco.

According to police reports, Wilson is charged with transporting a woman out of the state of Pennsylvania in 1928.

VISIT PINECREST

Miss Marjorie Dannenwith and Miss Eleanor Summers of the West side are leaving today for a vacation to be spent at Pinecrest.

ALIEN LAND RULE HITS COUNTY

As the result of a decision made by the third district court of appeals in Sacramento yesterday, the California Japanese alien land law stood virtually repealed in the opinion of high legal authorities.

Contra Costa farmers will be hard hit by the decision. Since 1915 it has been unlawful for Japanese to own any farm lands in the state. As the result of the decision of the court of appeals, this law has almost been declared null.

Although Sutter and Butte counties have been hard hit by the Japanese problem, Contra Costa county and the Delta lands have also been troubled by the same problem.

The court made its decision in the case of K. Osaki and K. Yoshioka, who were convicted in the Sutter county court on a charge of violating the 1915 act. The appellate court held that no crime could be proven unless the fact is established that the defendant is an alien.

Seen As Nullified
According to District Attorney Arthur Conner of Yuba City and other attorneys, this decision is tantamount to complete nullification of the law, in that it is admittedly impossible for a prosecutor to prove that a Japanese was born in Japan or in America.

The Sutter county case, which was one of the most hotly contested actions since the 1915 act, arose out of an alleged conspiracy between Yoshioka, an American born Japanese, and Osaki, whom the trial court instructed the jury was an alien.

It was charged that Osaki used Yoshioka as a "mask for leasing and working a large amount of rice lands in Sutter county."

Indicted By Jury
They were indicted by the grand jury and were found guilty in the Sutter county superior court of five out of the six charges brought against them. In appealing their case, the accused men based their plea in an attack on a 1927 act which places the burden of proof of citizenship upon the defendant.

The appellate court insists that the 1927 amendment is in violation of the constitutional guarantees as to due process of law and equal protection.

C. J. Johnson Named Head Of Western Auto

Announcement of the appointment of C. J. Johnson as manager of the Western Auto Supply company of Richmond was received here yesterday.

Johnson has been connected with the Oakland district office of the Western Auto Supply company for a number of years.

R. J. Kelley, who has been manager of the local store for several years, recently tendered his resignation. Kelly has accepted a position with the Montgomery Ward company.

Actress Faces Divorce Action

RENO, June 1.—UP—Mabel Taliferro, one of the Taliferro sisters of stage fame and creator of the role "Lovely Mary" in "Mrs. Wiggs of the Cabbage Patch" was sued for divorce here today by Capt. P. O'Brien, her world war hero husband. He charged that his wife deserted him in Hollywood, July 1927. The couple married in January, 1920 at Darien, Conn.

Hotel Carquinez Assessment Made

Owners of stock in the Hotel Carquinez, community hostility of this city will be required to pay an assessment of \$1 on each share of common stock and \$15.00 on each share of preferred stock before July 1, according to notices which have been posted by the board of directors.

According to the notices, the assessment must be paid on each share of subscribed stock of the organization, at the office of the company in the hotel at Tenth street and Ninth avenue.

The assessment was voted at a meeting of the board of directors on April 29.

Stock on which the assessment is not paid will be sold at public auction on July 27 at 1 o'clock at the office of the Richmond Community Hotel incorporated to pay the delinquent assessment, the notices set forth.

E. M. Downer, president of the Mechanics bank is president of the hotel corporation and H. A. Johnston is secretary.

Assembly Speaker To Address Kiwanis

First hand information of recent California legislation will be given to the members of the Richmond Kiwanis club at its meeting Wednesday noon in the Hotel Carquinez, according to an announcement made yesterday.

Edgar C. Levey, speaker of the state assembly, will be the honored guest of the club and he will deliver the address of the day.

Emil Esola is chairman of the day and has completed plans for a program.

In the absence of Clare D. Horner, who is attending the Shrine convention at Los Angeles, Homer W. Patterson will preside.

Geraldine Schoute Job's Daughter Head

Election of officers was held yesterday at a meeting of Richmond Hotel of Job's Daughters.

The new honored queen for the hotel will be Miss Geraldine Schoute. Other officers are: Clara Sanders, senior princess; Vivian Vaughan, junior princess; Doris Heaster, guide; Marjorie Alexander, marshal; Sterling Kitchen, chaplain; Geraldine Clock, secretary; Helen Heaster, pianist; Ruth Lewis, outer guard; Sadie Gasser, inner guard; Matilda Trost, treasurer; La Von McFarland, senior custodian; Betty Odell, junior custodian; La Vern Patterson, first messenger; Margaret Bronson, second messenger; Clara Laine, third messenger; Barbara Parker, fourth messenger; Pauline Draper, fifth messenger; Marjorie Woods, chairman.

Honored guests at yesterday's session were: Mrs. Elizabeth Turner, grand guardian of California, and Mrs. Elizabeth Hovey, deputy grand.

The business meeting and election of officers was followed by a reception and social hour at which the guests were honored.

Next Saturday, members of the hotel will meet for practice of the installation ceremony. All girls are requested to bring their own first messenger. Margaret Bronson, second messenger; Clara Laine, third messenger; Barbara Parker, fourth messenger; Pauline Draper, fifth messenger; Marjorie Woods, chairman.

Surveying For Auto Homes Here Started

Surveyors yesterday started work on the sites of the proposed Ford and Chevrolet agencies to be located in the Twenty-third street area.

A large crew of men, under the direction of Basil Spurr, who will be in charge of construction of the two agencies, is surveying the sites.

Early construction of the Ford salesroom at Twenty-third street and Barrett avenue is in sight. Actual construction will be started on the building within ten days.

The new Chevrolet building, opposite the Ford agency, at Twenty-third and Barrett will be started about the middle of July.

The buildings represent an investment of about \$10,000 each.

County To Receive \$61,339.53 Gas Tax

Contra Costa county's share of the state gasoline tax is \$61,339.53, according to press dispatches received from Sacramento yesterday.

State Controller Ray L. Riley announced that the entire tax for the state totaled \$5,113,015 on the sale of gasoline during the year 1928.

Los Angeles county gets the lion's share of the tax, a sum of \$2,063,311; San Francisco is second with \$397,098 and Alameda was third with \$367,935.

Other counties' shares were: Contra Costa \$61,339.53; Lake \$82,403.55; Marin \$28,540.12; Merced \$35,788.79; Monterey \$15,456.74; \$45,674.62; \$1,021.00; San Joaquin \$102,882.98; San Mateo \$59,575.01; Santa Clara \$142,957.24; Santa Cruz \$28,944.93; Solano \$34,082.84; Sonoma \$68,216.97; Stanislaus \$67,431.4.

LOCAL GROUP HOSTS TO MANY

Hundreds of Sciots from all parts of the bay region gathered last night at the annual ceremonial held under the direction of the Richmond Pyramid of Sciots at Winters' hall.

Starting with a big ceremonial and initiation, the event closed last night with a program of professional entertainment staged at the hall.

Toparch A. C. Burdick of the Richmond Pyramid was in charge of the event, which was pronounced one of the most successful in the history of the local pyramid.

As early as four o'clock yesterday afternoon visitors were being welcomed at the Richmond clubhouse by the members of the Richmond pyramid. Later the visitors were taken on an automobile trip through the city and were shown Richmond industries and the site for the proposed Ford plant on the local inner harbor.

Members of the reception committee who greeted the visitors included Burdick, J. W. Smiley, Ed Johnson, Councilman Walter W. Scott, A. C. Curtis, H. F. Chapman, John McGrath and Mark Hoover.

Immediately after dinner, the visitors gathered at the hall at Twenty-third street and Macdonald avenue and prepared for the big initiation ceremonies.

More than a score of local candidates, as well as hundreds of out of town men "crossed the burning sands" and became members of the order.

Burdick in Charge
The ceremonial was under the direction of George Bengley, chairman of the ceremonial committee. He was assisted by Sam Karch, G. J. Guman, William McDowell, and C. E. Marshall.

A feature of the entertainment was the drill presented by the Oakland pyramid of Sciots' drill team.

Official Present

Among the Sciots officials present were Deputy Pharaoh William Parker, of Oakland and other prominent members of the Oakland pyramid.

Music for the event was furnished by the Richmond Scot band. The program was arranged by the music committee which included K. A. Hoover, A. F. Nelson, J. J. Coward, W. J. Smith, R. B. Spierich and Chester Kelly.

The entertainment was presented under the direction of Dr. A. R. Hinkley, William Barry, E. A. Hoffman and A. C. Burdick.

Banquet Served

At the conclusion of the event a banquet was served under the direction of A. L. Hall, Harold Mochel, A. C. Curtis, Clyde Baker, Charles Morissette and Carl O'Connell.

Members of the publicity committee included Fire Chief W. P. Cooper, Leo Johnson, A. J. Paulsen and George Imbach.

Visitors were present from Oakland, Berkeley, San Francisco, Crockett, Yuba, Pittsburg, Napa and other cities.

Smith Loses In Play To Cotton

COULSDON COURT, Surrey, England, June 1.—(U.P.)—In a special 36-hole match arranged between the youngest members of the respective British and American Ryder cup teams here today, Henry Cotton defeated Horton Smith, 6 up and 5 to play.

Cotton's victory in the singles at Moorstown clinched the Ryder cup for Great Britain, while Smith's play was the redeeming feature of the American defeat. Both are just old enough to vote.

JESS SANDERS RETURNS

Jess Sanders, son of Mr. and Mrs. O. B. Sanders of Twelfth street, returned recently to his home in La Junta, Colo., after a week's visit with his parents. Sanders is connected with the Santa Fe railroad company, in La Junta.

MILLERS IN STOCKTON
Mr. and Mrs. F. W. Miller, 729 Ninth avenue, left for Stockton yesterday where they were called by the death of Miller's father.

More than 100,000 seeking relief from the heat at Coney Island caused a traffic jam. More than 1000 slept at the beach.

SUNDAY MORNING, JUNE 2, 1929.

PAGE THREE

C. C. KRATZER TO HANDLE LINE

With the initial presentation of the Marquette by its dealers everywhere today, the Buick Motor company again contributes a vital chapter to automotive history. Sleek, sturdy and powerful, this comparison to Buick brings within the reach of new millions a six-cylinder automobile in the low-priced field backed by all the great resources and facilities of the Buick Motor company and General Motors corporation.

Unlike many other newly introduced automobiles, Marquette comes to the public a thoroughly tried and proven product. Before being finally approved by Buick and the experts of General Motors, the Marquette was subjected not only to many thousands of miles of hard driving, but to gruelling and unusual tests at the General Motors proving ground to definitely establish its standards of performance.

According to C. C. Kratzer, local Buick-Marquette dealer, who is displaying the new car today, the two-door sedan is offered at low as \$965 with freight charged from the Buick factories at Flint, Michigan added. The new line consists of six models—a two-door sedan, a four-door sedan, business coupe, sport coupe, roadster, and a touring car. It is an exceptionally large car for its price and class, with a wheel base of 114 inches. All bodies are Fisher built and finished in ultra-smart new Duco color combinations.

Marquette's six cylinder L-head motor develops 67.5 horsepower and in carefully checked tests at General Motors proving ground has developed speed in excess of 75 miles an hour.

Seats Adjustable

Front seats in all Marquette models are adjustable by merely turning the regulator at the front of the seat. This feature in the Marquette is in use for the past year. It is actuated by the screw principle, being positive in action and easily adjusted, even while the car is in motion. It remains securely in place and can be adjusted to the fraction of an inch at any desired point within its range.

As in its companion, Buick, the new Marquette affords the advantages of positive pump fuel feed. All motors are equipped with an A. C. gasoline pump which assures the motor of an ample gas supply on steep grades and under other driving conditions where other types of carburetor feed are frequently at a disadvantage. An automatic heat control and an air cleaner further insure the efficiency of the Marquette fuel feed system.

4 Wheel Brakes

Four wheel, twelve inch, internal expanding Duo-Servo type brakes are used. They are easily operated, have ample capacity, are easily adjusted without removing wheels and have exceptionally long life between adjustments. Long semi-elliptic springs, used on both front and rear, together with the standard equipment of Lovejoy shock absorbers and the well balanced five steering mechanism give the passenger sedan a finished air of comfort and security that is Pioneer green, with black top.

MARQUETTE MAKES DEBUT IN RICHMOND

BUICK ENGINEERS take pleasure in introducing to the motor world, the new Marquette six, powered with an L-head type motor. Upper left is the four-door sedan; opposite the two-door sedan; in oval is ultra-modish new radiator; in center is powerful L-head motor; phaeton is on the right and just above is the sport coupe. The sport roadster and the business coupe comprise the balance of the new line.

never before been built into a car, of the weight and price of the Marquette.

A distinctive treatment of both line and color is evident in the Marquette's luxurious Fisher bodies. All exterior hardware is fully chromium plated and of a special design. The long, low lines of the cars are accentuated by a stream line moulding running the entire length of the body and hood. Wide, well designed doors and inset window openings are among the many distinguishing marks of the new car.

A distinctive and major improvement is found in the new type of tilted non-glare windshield which will prove a new factor in safety driving. While retaining all the advantages of comfort and ventilation of the older type, this new windshield provides absolute freedom from glare, either from the front or rear. To accomplish this, the windshield is tilted at the bottom 7.8 inches which gives it an angle from the perpendicular of 7 degrees. This angle causes all the glare from the windshield, whether from the rear, front or sides to be reflected below the driver's line of vision.

New Colors

Present fashion trends dominate the color harmonies available in the new car. The two door, five passenger sedan is finished in of comfort and security that is Pioneer green, with black top.

PROVING GROUND TESTS OF NEW CAR DELIGHT MAKERS

Outstanding in the presentation of the Marquette by its dealers everywhere today is the Marquette, the new six cylinder car produced by the Buick Motor company, is the fact that the car, though new to the public, actually comes to the automotive field a thoroughly proven product with standards of strength and performance definitely and unerringly established.

During the long months of development, Marquette cars have been driven over hundreds of thousands of miles in all kinds of weather to test their performance. The General Motors proving ground, presenting all sorts of rough and smooth roads with mounding and a cream colored striping around the body.

The four door, five passenger sedan, is especially large and roomy and is finished in Traverse blue, the top moulding being in a deeper shade of this popular color. A cream stripe completes this color creation.

The well proportioned, sturdy two-passenger business coupe, equipped with a large door conveniently hinged at the front, giving access to spacious rear compartment, is finished in Sahara grey with a cream striping. The top and mouldings are Amazon brown.

The sports coupe is specially finished and smart appearing. The rear compartment, containing a rumble seat, is completely finished and trimmed. The color combination is Verdun beige, with a top and moulding of Carolina beige, with cream striping and blue-grey upholstery.

The roadster, designed to carry four passengers comfortably is equipped with natural wood wheels and a dickey seat in the back deck. It is finished in San Diego tan with a Phoenix brown moulding and an orange body stripe.

The five-passenger phaeton has been designed for an all-purpose open car, with top neatly designed of grey waterproof material and a ventilating and folding windshield. The phaeton is finished in Chermonte cream with a premier green moulding and a cream stripe.

DE SOTO SIX POPULAR ON CAMPUS

The glorified, ram shackle, collegiate automobile with its grotesque motor and exhibitions of art on every available inch of space, from the radiator to the gas tank is fast disappearing, according to reports from university campuses and automobile companies the country over. Instead the spirit of youth in motor car demand is turning to cars embodying characteristics of youthful beauty and performance.

"It is true, students from this vicinity have shown a decided change in attitude toward the automobile they want to drive now compared with a year ago or more," declared A. R. Weisgerber, local dealer for the De Soto Six, a car which is proving to be one of the most popular among members of the younger generation.

"Rumor says the same fair coeds who refused to accompany hatless students through the streets of college towns also issued an ultimatum against the frisk automobile mode of personal which swept the campuses.

"The open type of automobiles in high standing now, according to a national survey made not long ago by a well-known collegiate magazine. Modern youth demands the freedom—the speed—the dash of the open car.

"The first manufacturer to sense this spirit was Walter P. Chrysler. The first car to carry an outstanding appeal to youth and to men of youthful spirit, was a Chrysler-built product. More recently this appeal was carried out to a greater extent in the De Soto Six, latest product of this organization. Immediately sensing its youthful, dashing appearance and alert behaviour, young America has bought this car in ever increasing quantities. His, elders anxious to retain the

of millions, only the finest proven materials have gone into the construction of this new car which is built to share in the prestige the Buick Motor company has been accorded for the last quarter of a century.

Under actual tests the car has consistently accelerated on a straightaway from 5 to 25 miles per hour in 8.8 seconds; from 10 miles per hour to 25 miles per hour in 6.2 seconds; from 15 to 40 miles per hour in 13.4 seconds and from 10 to 60 miles per hour in 31 seconds.

The results of these tests, together with a proven road speed well in the seventies, Buick officials say, create new standards of performance in a car of the weight and class of the Marquette.

spirit of happy youth, are fast following suit. "Of 2588 cars found parked on the campuses of six of the country's leading universities during a single recitation hour recently, the De Soto Six was well up with the leaders and numerically far in the lead over models in the low priced field. "It is the appeal to youth, contained in the long, sweeping, graceful lines and sparkling performance of the De Soto Six, that has made it so popular with the younger generation and with their elders who enjoy retaining their youthful outlook on life."

BIG REPAIR BILL

Bus operators spent \$80,000,000 for repairs in 1928, according to the California State Automobile association.

you can't substitute adjectives for engineering

When somebody invents a car that will run on superlative adjectives, the motoring millennium will surely be with us. Up to date, however, the efforts to substitute adjectives for engineering have been such dismal failures that the verbally-operated car still seems a long way off.

So until the "hot-air" motor is perfected, the Chrysler-built De Soto Six will continue to depend on its engineering and leave the adjectives to the other fellow.

Because it is typically Chrysler-engineered, De Soto Six already has achieved an admirable record of economy and durability, and

has earned the praise of thousands of owners by its gratifying performance, its handling ease and its low cost of operation and maintenance.

In addition to its ability to perform and keep on performing, it is handsome and comfortable. Chrysler-designed brakes give it exceptional safety.

Here is a six-cylinder car priced well below \$1,000 that inspires real pride of ownership. The purchase of a De Soto Six is the kind of economy dictated by wisdom and not necessity.

Before you take a demonstration, just ask yourself what a motor car ought to do. You will find that De Soto Six exceeds all your expectations.

CHEVROLET SIX CLAIMS NEW RECORD

DETROIT, Mich., June 1.—Evidence of the widespread popularity of the new six-cylinder Chevrolet was revealed here today in an announcement by R. H. Grant, vice president of the Chevrolet Motor company in charge of sales, that more than a half million of the new cars have been sold on the road since the first of the year.

A significant feature of this achievement, it was noted, is the fact that Chevrolet in four months has sold a greater number of six-cylinder cars than any other automobile manufacturer has ever produced in an entire year.

This figure would have been even greater, Grant pointed out, if Chevrolet had been able to take immediate care of the tremendous volume of orders with which the factory has been flooded since the introduction of the new car.

"Nearly every month this year has seen a new monthly production record," said Grant. "In order to satisfy the demand for cars pouring in from nearly every section of the country our output has been increased as fast as consistent with the precision manufacturing methods which the Chevrolet company employs."

To signalize the achievement of placing on the road more than 500,000 cars in less than four months time, Chevrolet secured John Philip Sousa, and his world famous band for an hour's broadcast over a nation wide hook-up on Monday, May 6. Only once before has the celebrated marching band been heard on the radio. That was at the Hoover acceptance speech at Stanford University.

Although Sousa has played to more people than any other director in the history of band music, appearing once before a single audience of 153,000 people at the International Exposition in Glasgow, America's grand old march king had one of the largest audiences that ever listened to one musical offering.

Thirty-nine stations, extending from coast to coast and from the Great Yakes to the Gulf, were linked together for Sousa's Chevrolet concert.

Chevrolet officials expressed

Back Seat Driver Scored By Safety Commission Head

Inattention continues as the cause of countless thousands of automobile accidents, reports the California committee on public safety which is coordinating the activities of state wide groups to reduce the toll of street and highway mishaps. The committee, which is composed of representatives of the California State Automobile association, the Automobile club of southern California and other organizations, is conducting a state wide traffic safety campaign. It's latest safety bulletin read:

Inattention continues to cause countless thousands of accidents, according to statistics relating to the causes of auto crashes from communities throughout the state. It is not always the well-known "back seat" driver who is responsible. Often the owner of the car is too happily engaged in chatting to keep his eyes where they belong.

"Don't talk to the operator," which is imprinted on thousands of signs in public conveyances, is advice which should be heeded by passengers in private cars.

The automobile driver must well have and observe a similar slogan.

Keep Oil Off Ignition Wires

Keep oil off the ignition wires, warns L. G. Evans, general manager for the National Automobile club. Oil is very detrimental to the life of rubber, causing rapid deterioration and cracking which in turn allows the escape of the "juice" on its way to the spark plugs.

Paint Protects Automobile Tops

A coating of suitable top dressing will help to preserve the fabric during the summer months, remarks L. G. Evans, general service manager for the National Automobile club. The combination of dust and summer sun will soon destroy the life of any top which does not receive the proper attention.

Counting as highly gratified that Sousa accepted the Chevrolet hour on the General Motors program to make his second appearance before the microphone.

ACCESSORIES LAUDED BY DEALER

What is the most important accessory on a motor car? Is it the speedometer, the gasoline gauge, shock absorbers, ignition lock? Opinions may vary, but according to L. J. Thomas, Studebaker sales manager here, the one necessary a motorist needs most when he needs it at all, is the "wiper" windshield cleaner.

"Since the windshield cleaner has become an item of standard equipment on every car in the market we have taken it so much for granted that we have forgotten its importance," says Thomas. "Only when the wiper refuses to work in rain or snow, and the normally clear vision it affords at these times is missing, do we realize what an important convenience and safety factor it is."

Studebaker's new Commander six and eight and President eight models are equipped with double windshield cleaners. But before Studebaker's research engineers would approve even this equipment for use on the new cars, the wipers and their mechanism were subjected to careful tests for reliability and long life.

"Most important of these tests was the actual operation of the wipers over thousands of miles of driving on Studebaker's proving ground under the most adverse weather conditions possible. In this manner valuable information was secured."

But Studebaker engineers, proud of their capacity to take infinite details, went further. Several tests were arranged in the laboratory. One set of apparatus consisted of six windshields mounted over a tank. The windshield cleaners were attached to these and operated continuously while water flowed over the glass. Counters were attached to each wiper to indicate the number of times it would operate before failure. Another piece of apparatus gave the cleaners perhaps an even harder test. Each wiper was mounted on a platform and a small weight attached to the end of the wiper shaft by a pulley arrangement. Each time the wiper oscillated back and forth it had to raise and lower this weight. Counters were attached to record the number of oscillations.

Hoover's Mule

SYMBOL of Democratic party, the mule shown above is a resident of President Hoover's ranch at Palo Alto. A Chevrolet Six recently took a photographer to the ranch to obtain the above pictures.

"After days of continuous operation it was possible to select the type of windshield cleaner that had demonstrated its superiorities in the most convincing fashion. This wiper had functioned for over a million oscillations before showing sufficient wear to constitute failure."

The experienced new-car buyer who does not feel it necessary to read the instruction book should at least take the time to study the section devoted to lubrication, says L. G. Evans, general service manager of the National Automobile club.

39 Cars Per Mile In U. S. Non-Employment

There are thirty-nine and two tenths automobiles for every mile of surfaced highway in the United States, remarks the National Automobile club. This means that if all the cars in this country were formed in a line there would be one for every 134.7 feet of improved roadway. We have still considerable room left on our highways, since the mileage of unimproved roads is four times greater than the mileage now improved.

Protection Of Auto Battery

Idling the motor causes the battery to discharge. This also applies to driving at slow speed. On the other hand, long trips during the daylight hours will cause the battery to overcharge. It is a good plan for the city motorist to take a long spin in the country occasionally, and likewise the motorist who is continually making long trips should turn his headlights occasionally to avoid overheating.

READ IT FIRST IN THE RECORD-HERALD

Automobiles Aid Non-Employment

For every six new cars placed in operation states a report from the National Automobile club, one more man is afforded the opportunity of working at some job. This aid is not confined to the limits of the United States. The \$10,000 American made automobiles exported during the year of 1928, created 135,000 new jobs in the several countries in which they were purchased. These figures have been compiled by G. A. Bauer, export secretary of the National Automobile club, of commerce and are based upon the number of people in this country employed in motor transportation, selling, servicing, highway construction and kindred occupations.

Don't Use Brake When Car Skids

There are two common methods of bringing a car out of a skid, states L. G. Evans of the National Automobile club. One is to turn the front wheels in the direction of the skid; the other is immediately to remove the foot from the brake pedal.

—RAGE WANTED—THE RECORD-HERALD

PARK TOURS ON BIG INCREASE

Motor travel to Sequoia National park continues to show a marked increase over that of previous years, according to the California State Automobile association.

More than 22,500 visitors have entered this great national playground so far this year, which is a 26 percent increase over last year's travel. Visitors from 31 different states as well as from three foreign countries were registered during March at the Ash Mountain Checking Station on the General highway leading to Giant forest.

This marked increase in the popularity of this Big Tree park in winter is due to the fact that the highway to Giant Forest has been kept clear of snow, the fine mountain and forest scenery, winter sports amid the Sequoias at 6,400 feet elevation, and to the beautiful display of spring wild flowers at lower levels. Snow conditions at the higher levels presage better water conditions for fishing, snow-capped peaks to a later date in the summer, and more water for the valley than has been the case for several years.

A great new achievement in the automotive world—Marquette, built by Buick! Marquette is the smartest of the smart. Low-slung, rakish, hug-the-road lines. Beautiful color harmonies. Tailored and fitted to perfection. And what a performer this remarkable car is! Imagine flashing from 10 to 60 miles an hour in

THE MOST COMPLETE CAR EVER OFFERED IN THE \$1000 FIELD

The new Marquette Six combines for the first time the many fine car features that makes a complete motor car.

Long rakish lines—114-inch wheelbase—a full size car in every respect.

Body by Fisher. All closed bodies are the latest product of the world's finest closed body craftsmen.

Non-glare Fisher VV type ventilating windshield—a brand new feature. With the tilted windshield the driver is not annoyed by headlights in back of his car or coming toward him—there are no distracting reflections.

New type mohair upholstery—has rubberized back—is waterproof and dustproof—a new development by Fisher, first shown on the Marquette—a great improvement.

Spacious rear seat—47½ inches in width—three adults can ride in perfect comfort.

Ample leg room in front and rear compartment—interiors are spacious and comfortable, no feeling of being cramped in this car.

Adjustable front seat—driver can adjust seat at will, for his personal comfort and convenience.

Remarkable power plant—motor develops 67.5 brake horsepower and provides the most brilliant performance ever achieved in this price field.

Piston displacement 212.8 cubic inches—a bigger displacement than any other car in the \$1000 field, indicating power to meet every demand.

High-compression cylinder head—special non-detonating design.

Rubber engine mountings—at all four suspension points—shocks and jars to chassis frame are absorbed before they reach the engine.

Counter-balanced crankshaft—vibration eliminated and power delivered in a smooth, silent flow.

Automatic heat to carburetor—saves fuel and insures quick warm-up and easy starting in all seasons.

Thermostatically-controlled water cooling—insures normal operating temperature of motor in shortest possible time.

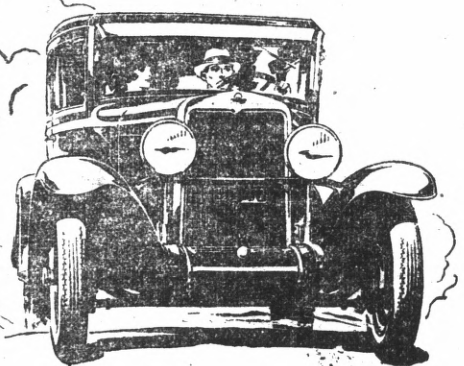

Completely sealed engine—oil filter, fuel strainer and air

31 seconds! Think of accelerating from 5 to 25 miles an hour in high gear up a long 11.6% grade! (The average road grade is 7%). Think of riding at 68 to 70 honest miles an hour with complete safety and comfort. That's the kind of pick-up and power and speed you need in a car nowadays—and that's what you get in the Marquette.

cleaner prevent dust, dirt and water from entering engine. Crankcase ventilator prevents oil dilution. Forced lubrication—to all main bearings, connecting rod bearings, cylinder walls, camshaft bearings, and chain drive—the best engineering practice. Crankshaft bearings stepped in size from front to rear—reducing vibration to a minimum. Crankshaft weighing 75 lbs. is placed in both static and dynamic balance—to assure a smooth, quiet motor at all speeds. Lovejoy hydraulic shock absorbers, both front and rear—perfect riding ease. Four-wheel internal-expanding brakes—Duo-Servo type protected from dirt and water. Brake cross shaft is equipped with three bearings as an added protection—providing useful braking power in every event. Controlled with self-aligning bearings which are not affected by chassis strains and twists. Adjustable steering wheel—driver can have steering column raised or lowered to suit his particular preference. 16-gallon gasoline tank—enough capacity for long trips without the bother of refilling. Hydrostatic gasoline gauge on dash—a much appreciated convenience. Guide tilt-ray lamps—fine car feature unusual in a car in the \$1000 class. New construction of headlamps—makes them dust-proof, keeping reflectors clean and lights efficient. A host of other extraordinary features that combine to make the Marquette America's most complete car in the \$1000 field.

There are so many surprising new things about the Marquette that you must see it to get a true impression of what a marvelous value Buick has created. On display today at Buick and Marquette dealers.

DRIVERS GIVEN TOURING TIPS

Summer will soon be here—get your car ready for the long trips ahead, advises R. J. Kelley, local manager of the Western Auto Supply company.

"In a very short time the touring season will be here and many car owners will no doubt take long trips over roads which are strange to them and under conditions with which they may not be familiar," says Kelley.

"In order that the greatest amount of pleasure may be derived from a vacation trip, it is essential that the car should be in the very best of condition. The car owner who takes care of his automobile in the right way gets a great deal of enjoyment out of the experience in addition to the extra years of service that he gets from his car.

"When an automobile loses pep on the hills and does not perform as well as it used to, the fault is often due to neglect on the part of the owner in not having his car inspected until after it has reached such a condition that its loss of efficiency is made conspicuous by its poor performance."

A few of the principle servicing items that should be looked after regularly are recommended by Kelley as follows:

Adjust ignition timing.
Tighten electrical connections.
Inspect spark plugs and replace if necessary.
Clean and adjust contact points.
Clean battery terminals and replace cable if worn.
Check lighting system for worn connections.
Inspect and replace radiator hose connections.
Flush and clean rust from radiator.

Clean distributor cap.
Adjust or replace fan belt.
Clean all fuel lines.
Adjust carburetor.
Check oil filter, renewing if necessary.

Change crank case oil.
Clean out carbon and grind valves if necessary.
Check wheel alignment.
Replace doubtful tires.
Replace broken or missing tools from kit.
Check oil pump and jack.
Adjust brakes.
Thorough lubrication.

GREEN GAZERS, RED RUSHERS SCORED

Are you a "Green Gazer" or a "Red Rusher?"

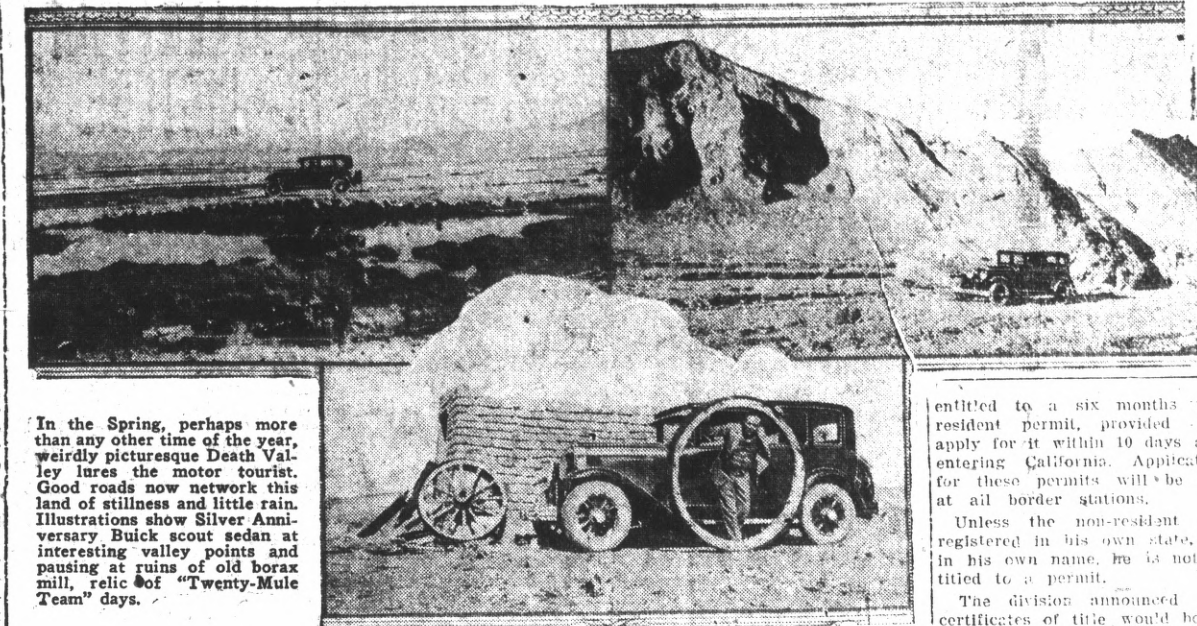

These are the terms coming into common usage for motorists who delay starting when the green traffic light flashes on or who continually try to clip a few split seconds from their time by beating the red light. Thus reports the Public Safety department of the California State Automobile association in calling attention to the fact that these classes of drivers do much to offset the value of traffic regulation and traffic signals. Failure to smoothly operate your car where such is essential to even flow of traffic throws the whole system out. The "green gazer" holds up a whole line of traffic behind him. The "red rusher" gets midway of the intersection as cross traffic is proceeding under its own green signal. Both are evidences of lack of thought and selfishness.

"Green gazers" you've driven behind them. The light is red. You wait. The cars ahead of you wait. Comes the green. You give 'er the gas and get ready to slip in the clutch. The parade stands. The man at the head of the parade is a 'hub' guy. He is saying to the green "pardon me!"—what did you say? Instead of giving his car the fuel and the clutch.

The same is true of the "red rushers." The driver is going road where the red flashes on him. He only says "huh?" or "pardon me," did you say red? and on he goes. His mind will not function quickly enough. He cannot get instant physical obedience to his mental mandates. There is a clog of some kind in his neutral feedline; a wire is grounded somewhere in his telegraph system; the fuse, as before mentioned, is either wet or too long—after the mental match has been paced, there is too much sputtering while the detonation is deferred.

If the brake lining is worn and requires replacement, this should be done before starting on a trip. It is both dangerous and annoying to start out with worn lining. There are several excellent makes of brake lining including Neverburn which safeguards life and property by efficient braking.

Death Valley Trip Beckons Coast Motorists

In the Spring, perhaps more than any other time of the year, weirdly picturesque Death Valley lures the motor tourist. Good roads now network this land of stillness and little rain. Illustrations show Silver Anniversary Buick scout sedan at interesting valley points and pausing at ruins of old borax mill, relic of "Twenty-Mule Team" days.

Rough Streets Hard On Tires

Rough sports in the street, as loose stones, uneven car tracks, or other obstructions, are hard on tires particularly when power is being applied to the rear wheels according to the free emergency road service of the California State Automobile association. Much of this strain on the car can be avoided by releasing the clutch and coasting over the rough places.

Keep Close Check On Tires Of Car

Check your tires occasionally for uneven wear. If the tread is cutting or chopping off in spots, the wheels may be out of line, or the tire may be under-inflated. A bent axle, bent steering knuckle, broken spring, bent spindle, dragging brake or loose wheel may be causing the damage.

BRITISH LAUD NEW BUICK CARS

That the new Buick, especially the new body style, has struck the popular fancy of the British public is evidenced by the many unstinted, favorable comments that have appeared in the British press since the advent of the new car.

"The 1929 coachwork is probably amongst the finest which America has yet given us," says a writer in the New Statesman, a popular London review of politics and literature, a copy of which has just been received by C. C. Kratzer, local Buick dealer. "It is designed throughout," he continued in part, "with a practical eye on the probable demands of the owner, and embodies every conceivable convenience and gadget."

Buick cars for many years have been setting a pace in England which the British manufacturers have been unable to maintain. Buick's tremendous power and flashing speed, its dependability and beautiful body work have created a new standard for the English motorist.

Many British automotive writers frankly admit the Buick supremacy says the New Statesman. "More than this, the Buick has achieved such very large sales to buyers of this particular type that in self-defense a great many of the British manufacturers have been forced to copy its general layout and specifications. And with the usual fate of mere copyists, they have by no means always produced copies as sound as the original."

This writer sums up the Buick from the British point of view.

"We all know that when the seas were reopened—following the armistice—the Buick instantly became the favorite purchase of the man who is wealthy in a betwixt and between sense. It is not an ostentatious car. It is not really expensive. It will last for a good number of years if one dislikes an annual change of car. It is entirely reliable. In other words, when a practical man wants a car that is roomy and good, and needs it for use rather than to advertise his (financial) position, there is no reason why he should buy anything better than a Buick—and at the money he certainly cannot obtain anything better."

This high evaluation of Buick is not confined to England. It is shared by the motorists on the Continent, in France, Germany, Italy and the Scandinavian countries, and it justifies the optimistic predictions of factory officials that the 1929 export business will be the greatest in the history of the Buick organization.

TOURISTS USE VIGILANTE TRAIL

SACRAMENTO, April 30.—Rules

and regulations governing the operation and registration of non-resident motor vehicles in California during the coming tourist season were made public today by the division of Motor Vehicles. The vanguard of a vast army of tourists has already begun to arrive, according to reports received by the division. In anticipation of the arrival of a record number of out-of-state cars, the "courtesy" stations located at the borders of the states are being made ready to receive them and extend the state's official welcome.

If properly registered in their own states, non-residents are

entitled to a six months non-resident permit, provided they apply for it within 10 days after entering California. Applications for these permits will be kept at all border stations.

Unless the non-resident has registered in his own state, and in his own name, he is not entitled to a permit.

The division announced that certificates of title would be accepted as evidence of ownership, after the six months permit expires, from the following states: Alabama, Arizona, Colorado, Delaware, Florida, Idaho, Indiana, Maryland, Michigan, Mississippi, Missouri, Montana, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, South Dakota, Utah, Virginia and Wisconsin.

From states that do not issue certificates of title the division will accept the following as evidence of ownership:

Certificate of registration and notarized bill of sale; or certificate of registration and original lease contract showing same to have been paid in full, or certificate of registration and duplicate lease contract carrying the name of the legal owner and verification by wire of the legal ownership.

The engine number must be verified in all of the above methods of registration. Papers, presented for registration, pertaining to title, will be kept by the division as evidence of ownership.

If properly registered in their own states, non-residents are

CHRYSLER CO. EXPORTS GROW

The Chrysler corporation reported a decided gain in shipments for April of this year of all Chrysler built cars as compared with April of 1928, according to word received by Harry Curry, of the Curry Auto Sales.

According to the official announcement of the corporation, Chrysler shipments during April of this year, both domestic export and Canadian, of Plymouths, Chrysler "65's" "75's" Imperials, DeSotos, Paagos, commercial trucks and cars, Dodge Brothers new sixes, Seniors, and Dodge trucks, buses and commercial cars, totaled 59,785 units, a gain of 26.5 percent over the 47,155 units shipped during April of 1928 and a gain of 72 percent over the shipment of 34,781 in April of 1927.

Total shipments of Chrysler and Dodge Brothers automotive products for the first four months of 1929 amounted to 182,521 units, a gain of 14.3 percent over those for the same period of 1928 when 159,857 were shipped and an increase of 42.1 percent over the 127,903 units shipped during the first four months of 1927.

A decided increase occurred in Plymouth shipments in April, 16,113 cars being shipped as compared with 10,926 in March, a gain of 5,187 cars. Plymouth shipments, although the factory was on schedule with production, failed to meet orders by 4,000 cars so popular has this car become.

may be used for a period not to exceed six months in California and only while such license is valid in the state it was issued.

Officers at the "courtesy" stations have been instructed to advise the out-of-state motorists to go directly to offices and branch offices of the Division of Motor Vehicles for registration service instead of service bureaus or other agencies charging fees for such service. No fees except those required by law are charged by the division.

—RAGS WANTED—
RECORD-HERALD

English Like Car Coasting

Free-wheeling, or coasting with the car out of gear, seems to be quite the custom in England, says a report from the National Automobile club. The main object is probably an attempt to save a little on the quantity of gas used, since that commodity is more of an item in the expense of running a car in England than it is in this country.

High Speed Does Not Save Gasoline

Do not be displeased if your gasoline mileage when traveling for a great distance at high speed does not show greater economy than for the city driving with its attendant stops and starts, for, states Lewis C. Shaw, service department, National Automobile club, the continuous driving at high speed may equalize the condition of sudden acceleration.

Five million six hundred thousand tons of steel, equal to 16 percent of this country's output, was consumed in the manufacture of automobiles during 1928, states a report from the National Automobile club.

DRIVE A CHRYSLER

DURING "Learn-the-Difference" MONTH

Only one week of "Learn-the-Difference" Month—and already people are talking Chrysler as they never have talked before. This difference! That difference! A new surprise here, a new thrill there.

But we want you to do more than merely hear this difference in words. We want you to see and feel and experience it—in facts, in results!

Come into our showroom—let us point out Chrysler's exclusive features—explain its advanced design—demonstrate Chrysler's unmatched performance.

"A CHRYSLER '75' SEDAN GIVEN AWAY FREE"

During Chrysler "Learn-the-Difference" Month every man and woman of legal driving age who receives a floor demonstration, followed by a road demonstration of any Chrysler '65' or '75' will be entitled to a Demonstration Card. Each card bears a different number. At the end of the month, the winning number will be drawn, and the person holding it will be presented with a Chrysler "65" sedan.

Chrysler is not only different in the big obvious things. It is different in the little things that mean so much in the pleasure and convenience of driving a motor car.

In design and construction—Chrysler is far and away the leader—as unlike other cars as day and night.

We could fill this whole page with type telling you why Chrysler is vitally different. But a five-minute inspection, followed by a brief drive, will tell the story far more graphically—and completely.

That's the reason for Chrysler "Learn-the-Difference" Month. So that you may learn the all-inclusive superiority of Chrysler—see it—experience it—and thereby learn the difference between the Chrysler and any other car in the world.

More doctors
more lawyers
more business men
buy Buicks than any
other fine car

Professional men know automobiles. Their very standing in their communities demands that they drive cars of outstanding merit and reliability. It is significant therefore that more doctors—more lawyers—more business men the country over buy Buicks than any other fine car!

You will find these discerning owners agreed that Buick combines the maximum of tasteful luxury and distinction... and, in addition, a margin of clear-cut leadership in power, get-away, swiftness and stamina so remarkable as to single out Buick as the great performing automobile of the day!

As a result of this leadership—in traffic—on hills—on the highway—Buick wins more than twice as many buyers as any other car priced above \$1200 and pleases them so thoroughly that Buick owners alone purchase more Buicks than the total production of any other quality car.

YEARS OF WORK IN PREPARING IRON MASK

Douglas Fairbanks is to the screen what David Belasco is to the stage, the master of fidelity to detail. But Fairbanks has one great advantage over Belasco. The limits of the screen are boundless, all of the world offers itself to the eye of the camera, while the effects of the theater are confined to the narrow boundaries of the stage.

In his newest United Artists picture, "The Iron Mask," which is coming to the Fox-California theater Tuesday, Fairbanks has spared neither time, money nor effort in securing the adherence to detail which he demands. Five hundred workmen spent three months constructing the village and palace of St. Germain. Expert stonemasons laid the cobblestones of the streets and courtyards according to the seventeenth century pattern. Whole trees were transplanted and flowering rose bushes were trained to twine themselves about the time-blackened timbers of the village dwellings. The huge fountain in the public square was built in exact duplication of one of the famous fountains of the seventeenth century, and was so constructed that real water poured from its massive front. Every detail of the French village was real from the weather vanes which swayed with the wind on the peaked roofs, to the vegetables in the market stalls.

The courtyard of the palace of St. Germain was the largest set of its kind ever erected for a screen production. The ground it covers was more than twice that of a large city block and its stone walls towered two hundred and fifty feet in the air. The massive doors of the castle were carved by hand by skilled workmen, and the polished floors of the royal chambers were laid by masters in the art of parquetry. Even the tapestries on the palace walls were made in perfect reproduction of museum pieces of the wall coverings of the period of Louis XIII.

Months of careful research were spent in perfecting every detail of the accurate realism of "The Iron Mask," and Fairbanks was aided in his efforts by M. Maurice LeBlond, the world's greatest authority on seventeenth century manners and customs.

Latest Tom Mix Picture Showing On Local Screen

Presenting Tom Mix, popular and famous western star, in his latest FOX production, "Outlawed," a gripping tale of adventure is showing today at the Fox-Richmond theater.

He is supported by Sally Blane and bank robbery by the powerful leader of a robber band, Mix is in plenty of trouble through several sequences of the picture, extracting himself from several hazardous situations by dint of quick action as only he can provide.

tomorrow, L. S. FISH will meet A. Lemes, George Caldwell will meet Dan Lemes and Paul Schultze will play Wayne Neville.

Three games are scheduled for

HEART THROBS APLENTY IN PICTURE

Against shifting backgrounds of New York's colorful East Side and the luxurious surroundings of Riverside Drive Columbia's "Younger Generation" which will be shown at the Fox-California theater today presents a drama of touching heart interest.

Pathos is relieved by deft touches of humor that hide tears with smiles. Love ready to sacrifice itself for another is revealed in tense situations. A fire in a tenement house, a bold daylight robbery on Fifth avenue and gay social functions are among the highlights.

"The Younger Generation" is an adaptation of the stage play "It Is to Laugh" and the story, "The Gold in the Fish," by Pauline Hurlst.

Jean Hersholt has the stellar role and gives one of the best performances of his long and varied career. He is supported by an all star cast, one of the best ever assembled for a single production. The list includes the names of Lina Basquette, Rosa Rosanova, Ricardo Cortez, Rex Lease, Martha Franklin, Julianne Johnston, Pack Raymond, Sydney Crossley, Otto Fries, Julia Swayne Gordon and Donald Hall.

The production was made under the direction of Frank Capra with Teddy Tetzlaff at the camera.

Giant School Holds Picnic

The annual picnic of the Giant school was held in Golden Gate Park, San Francisco, recently with the entire school in attendance. The pupils were chaperoned by their teachers, Mrs. M. Mick and Mrs. Ella Sommers and their parents.

The outing was arranged by the Parent Teachers' association of the school.

—RAGS WANTED—
RECORD-HERALD

Jacobs Opens Office Here

Judge Hiram E. Jacobs has opened offices here at rooms 413 and 414 in the American Trust company's building, Tenth street and Macdonald avenue. Jacobs was formerly deputy district attorney here.

California Cap To Reduce Board

Notice of reduction of its board of directors from six to five members was filed in Martinez yesterday by the California Cap company of Stege through its president, R. L. Oliver.

Copyright 1928, Warner Bros. Pictures Inc. "NOAH'S ARK," starring Dolores Costello and featuring George O'Brien, is a Warner Bros. pictureization of this novel. It is based upon the scenario by Darryl Francis Zanuck.

In a compartment on a Continental train are three friends, Ivan, Armand and Emil. They invite a French girl, Marie, to share their seats, but a priest and two American men, Jim Travis and Al, interrupt the flirtation. The train is wrecked and Travis rescues the girl and with Al they discover a mysterious inn. They are followed by the three friends. That night Ivan, Armand and Emil quarrel bitterly over the girl, but the quarrel is interrupted by a squad of German soldiers announcing: War is imminent! They begin to search the inn for hidden armament. Travis is planning to escape with Marie and Al.

CHAPTER VI—Continued

"She says there is a horse and cart in the stable," she interpreted. "There is a station just a little distance. She shows us the direction."

"Well, that's a help," Travis breathed, signs of relief. "Now you go and get dressed, Marie, and be ready to start just as soon as you can."

Marie nodded and gave Hilda the instructions and the three hurried back into their rooms.

The noise of the pounding had lessened, it seemed, for now the searching party had found the door to the cellar and they were already at work there. This officer covering the terrified landlady, while one of his men kept a sharp watch on the three strangers.

In the basement the soldiers were throwing the boxes aside and rolling the barrels out of their wagons. They piled at the back with their bayonets. Bottles crashed.

"What!" Armand and Ivan stared at Emil in amazement, scarcely believing that they had heard correctly.

"I am not a spy," Ivan declared excitedly. "I am Ivan Saravov and a member of the—Heidelberg Student Corps."

"And I am Armand Duval, also a member of the same corps." He, too, produced his passport but the officer scarcely glanced at either.

"The third one," he said coldly. "Save that you," turning to Ivan, "are Russian, and you," he looked at Armand, "are French."

"Perhaps it may prove something when I explain that we three were traveling back together from a reunion of our corps, which was wrecked," Ivan began. "We were forced to take shelter here, this being the only house nearby. Further than that, we know nothing."

Emil smiled cynically. "It is true I have been traveling with these men, sir—for the purpose of watching their movements."

"He lies!" Ivan shouted angrily. "He is accusing us for only one reason—to get rid of us. There is a girl upstairs. You will see company me, Lieutenant Helmke. He motioned for Emil to follow him.

But as Emil and the officer had followed Ivan had looked at Armand, and then glanced at the guard. He knew that they were to act at all they must act now. Deliberately, he turned his head up to the balcony as though interested in what was going on upstairs.

Armand followed his move, and the guard, seeing his prisoner so absorbed in the actions of the searching party, turned to look, too. At that moment the Russian leapt on the guard, swinging a heavy fist into the pit of the man's stomach. Doubling up from the blow, the guard fell from his hands and Armand caught it. Armand and Ivan raced towards the door.

The noise of their footsteps brought Emil out into the corridor onto the balcony, just in time to catch sight of the two figures fleeing through the open portal.

"Stop them!" the officer screamed to the outside guard who remained in the doorway so absorbed in the actions of the searching party, turned to look, too. At that moment the Russian leapt on the guard, swinging a heavy fist into the pit of the man's stomach. Doubling up from the blow, the guard fell from his hands and Armand caught it. Armand and Ivan raced towards the door.

Now Is The Time To Buy

Real Estate in Richmond, Either a Home Or As An Investment

Macdonald Avenue is now and will always remain the Main business street. I have several large lots only one, two and three blocks from it on both sides between 6th and 16th streets.

Buy one and I will build a home to suit you, and sell it to you on easy terms, or cheap, for cash. Save time by walking to and from your work. They are sure to increase in value. This kind of property has made the greatest fortunes for many conservative investors.

A SPECIAL OFFERING

Owner having moved old house off of lot 50x112 1/2 it now has gas, water and sewer mains in from front to back; also a good garage. Some fruit trees in back yard and two large palm trees in front yard. Located on 17th St. North, 2 blocks from Macdonald avenue. Price very low as owner needs money. Come and let me show you this lot and I will surprise at the low price.

50x112 1/2 So. Side of Bissell between 14 and 15 Streets.
75x112 1/2 West side of 14th Street, near Bissell Ave.
75x112 1/2 Northwest corner of 14th and Chandler Avenue.
75x112 1/2 East Side of 18th, between Bissell and Chandler. Fine location for apartment house, or for 2 residences.

LAMBRECHT'S

BABICH HURLS HITLESS GAME

Johnnie Babich checked a no-run, no hit game for the Redmen Juniors of the American Legion circuit when it defeated the Crockett team at Crockett yesterday morning by a score of 20 to 0.

Not one Crockett man went past second base during the encounter and 14 batters were sent to the bench via the strike-out route.

Hampshire led the local attack with five hits out of five times at bat, scoring three runs.

San Miguel, local catcher, got three out of four and smashed out a home run.

From all indications yesterday the team that beats the Redmen will be the state champions.

The score:

Daily Bible School Opens Here June 16

Plans for one of the largest daily vacation Bible schools in the history of the city was announced yesterday by Mrs. Charles Wolfe, who will act as superintendent of the school.

Registration day will be Saturday, June 8 and teachers will be at the different churches between the hours of nine and 11 a. m. to receive registrations. Fourth, fifth and sixth grade boys will register at the Wesley Methodist church; Fourth, fifth and sixth grade girls at the First Presbyterian church and younger boys and girls south of Macdonald avenue will register at the First Christian church. Younger boys and girls living north of Macdonald avenue will register at the First Baptist church.

The school will start on June 10 at nine o'clock and will close Friday, June 28. The sessions will be from nine to 12 a. m. daily.

Richmond Net Club To Meet Bushrod Team

The Richmond Tennis club will tangle with the Bushrod Tennis club of Oakland here this morning at 9:30 at the City Hall courts according to announcement made yesterday.

The local players will include: Clare Bryant, Sam Wells, Carl Peterson, James Hurley, Phil Carlson, Marvin Truett, Bob Radke and C. Gopsevic.

George Mayer Funeral Held

With the Pinole lodges of Knights of Pythias and Redmen officiating, funeral services were held yesterday afternoon from the Wilson and Kratzer chapel for Fred George Mayer, 62, of Hercules. Interment was in Sunset View cemetery.

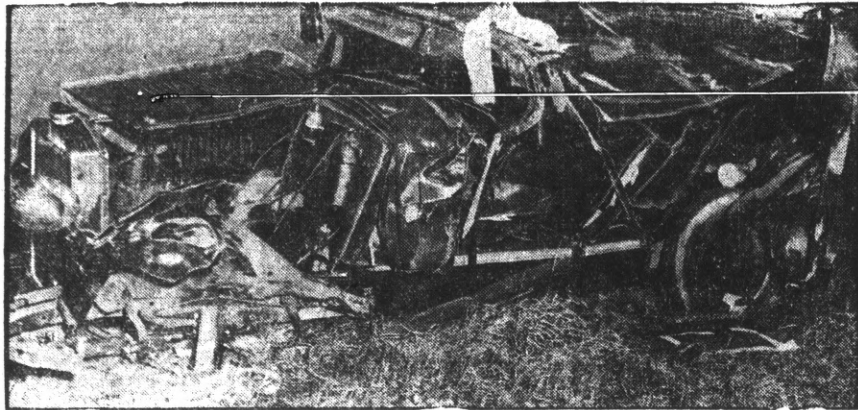

Deceased leaves a wife, Mrs. Emma Mayer and several other relatives.

Kansas City, L. A. Air Service Opens

KANSAS CITY, Mo., June 1.—UP—Bearing Jack Dempsey and other Transcontinental air line pioneers, a big Fokker monoplane was speeding westward late today on the maiden flight of the Western Air Express, Kansas City to Los Angeles service.

Other passengers included prominent business men of the middle-west, Shriners, and Miss Marjorie Sheets, the only woman passenger. She is a Chillicothe, Mo., school teacher.

2 Killed, 4 Hurt In Crash

CRASH followed when this large sedan failed to make a turn near Central Park, Long Island, N. Y. Two persons were killed and four others injured. The speeding car hurtled into another machine with the above result.

Turned Back

HOPED to fly Atlantic in Graf Zeppelin but were disappointed when huge craft was turned back by engine trouble. They are (left to right) J. J. Kryte, Mrs. Mary Pierce of New York and Sir George Wilkins, the polar explorer.

Young Hughes Gets New Post

CHARLES E. HUGHES, Jr., who has been appointed solicitor general of the United States by President Herbert Hoover.

MISS REEB VISITS

Miss Lila Reeb, who has been teaching school in Loyalton, Sierra County, has arrived here to spend the summer with her parents, Mr. and Mrs. Herbert Youd, 903 Barrett avenue.

State Golf Title Won By Neville

DEL MONTE, June 1.—UP—Age triumphed over youth today and the veteran Jack Neville of Monterey defeated the youthful F. C. Stevens of Los Angeles 2 and 1 to win his fifth California State Amateur championship.

Too much confidence nearly cost Neville his victory and it was only after one of the most desperate matches seen in this region in many years that he terminated the match on the 35th hole.

Going out for the afternoon round with a safe margin of nine holes, the veteran dropped six holes straight to the determined Los Angeles and at one-time on the outward journey was only four up.

The first hole of the second round went to Stevens, with a five after his second shot had hit a tree and bounced far back on the fairway. Neville took a six.

Tilden Loses To R. LaCoste

ROLAND GARROS, STADIUM France, June 1.—UP—William Tilden II, six times National tennis champion of the United States and ranking number 1 player since 1919, today suffered the worst defeat of his many international court battles against the French.

His conqueror was swarthy little Rene La Coste, who swept the faltering American star from the French championships in their semi-finals match this afternoon in four sets, only one of which Tilden was able to win. The scores were: 6-1, 3-0, 5-7, 6-3.

Pilot Killed, Girl Dying In Air Crash

PILOT KILLED page one

LOS ANGELES, June 1.—UP—Raymond Compton, young aviator died in Hawthorne hospital and Ysabel, Goff, Los Angeles society girl was near death as the result of an airplane crash in Hawthorne today. The plane crashed in the background of the home of R. D. Ballard. Witnesses said Compton apparently was attempting to teach the girl to fly and that the plane lost altitude as they tried to change controls.

PIANO PUPILS PLEASE AT RECITAL

Daintily gowned little women and gayly clad gallants of different countries vied for favor last evening in a charming costume recital entitled "Dream of the Shepherdess," presented at the First Baptist church by pupils of Miss Ethel May Vestal. A large and appreciative audience gathered to see and hear the young performers present the lovely dream story in music and drama.

The prologue of the story is about a little shepherdess who is a dreamer and lover of music.

In her imagination she pictures the people of the different countries, in the bright colored costumes she had read about in her story books. Upon falling asleep she hears people of different lands play and sing to her.

Those taking part in the various scenes were:

French Colonial scene: Shirley Hornberg, Mabel Schulz, Earl and Eugene McCray, Margery Gengler, Virginia Thole, Rowena Brusie, Frances Schultz, Eugenia Pinoli, and Maxine Thole.

On a Southern Plantation: Ira Cole, Emma Marchisio, Roy George and Marian Bryant.

Indian scene: Earl, McCray, Marian Bryant and Ira Cole.

In the Orient: Evelyn Yeadon, Versa Trent, Boyd Hornberg, Ethel May Vestal and James Brien.

Ireland: Madeline Whittlesey, Marjorie Whittlesey.

Spanish Gypsy scene: Marian Bryant, Kenneth Gengler, Eugenia Pinoli, and Ira Cole.

Poland and Russia: Emma Marchisio, Alexander Marchisio, and Elizabeth Taylor.

Hungary and Germany: Maxine and Virginia Thole, Irene Nagy and Ethel May Vestal.

United States: Roy George, Eugene McCray, and Charles Brown.

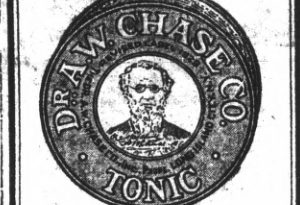

NOTICE

All members of Point Richmond aerie of Eagles are requested to attend the meeting in Woodmen hall Tuesday, June 4, at 3 p. m. when newly elected officers will be installed. A banquet will follow.

W. E. McCHRISTIAN, sec't

FLOOD WATERS RECEDING IN SOUTH

Continued from Page 1

body had not been recovered this evening. A report widely circulated that a messenger boy had been seen to drown when he rode his bicycle too near the swirling waters at Houston, Texas, was discounted. A check of telegraph stations revealed no boys missing.

The floods are the result of torrential rains which have been falling for the past five days. Heavy rain fall was experienced throughout Friday night.

At Dawson, Neb., seven inches of rain fell during the night.

Houston Hit

Texas suffered the heaviest damage from the floods, Buffalo Bayou, ordinarily a sluggish little stream which flows through Houston, being transformed into a raging torrent, rising to a height 43 feet above normal stage and driving hundreds of persons from their homes. A large section of the city was under water and property damage was believed to exceed a million dollars. Many small towns were isolated or in immediate danger as the crest of the flood passed Houston and swept down the wider channel and lowlands along the Navigation canal.

In Nebraska, high water and heavy rains caused the derailment of two passenger trains and marooned several others. The Nemaha river, ordinarily a placid stream only 45 feet wide, spread out over a half mile of territory in many places and the flood was the worst in 16 years. Dozens of persons were forced to take refuge on house tops and motor boats were busy thrughout the day removing them to places of safety. Many automobiles were stranded by the water which overflowed highways. Loss to crops and livestock was heavy.

Missouri Flooded

Northern Missouri was in the throes of the worst flood in recent years with streams overflowing rich farm lands. In Kansas City, basements were flooded by heavy rains, which halted street car traffic and raised havoc with electric lights and telephones. Agency, Carrellton and Brunswick sustained heavy flood damage.

Rivers and small streams throughout Kansas were bank full but flood damage was believed to be slight.

Weather forecasts predicted local thundershowers throughout the flood district, but P. Conner, government weather observer at Kansas City expected no recurrence of the rains of near cloudburst proportions.

Savant Hunted

In School Row

DES MOINES, June 1.—UP—Students of Des Moines university tonight scattered in an intensive search for Dr. T. T. Shields, of Toronto, Canada, president of the board of trustees and diplomas and degrees which were taken from the University offices this afternoon.

The students were alarmed that they would not receive their awards of graduating exercises Monday.

Tom Carlson To Handle Defense For MacKinnon

Thomas M. Carlson, Richmond attorney, has been retained by Justice of the Peace A. H. MacKinnon to defend him on a charge of driving while drunk that was returned by the grand jury last week. T. D. Johnson of Martinez and Hugh Donovan of Pittsburg have also been retained by MacKinnon.

MacKinnon was arrested several weeks ago on the drunken driving charge which he denied. After an investigation to the county grand jury indicted him of the charge. He will appear for trial in the superior court at Martinez on Monday.

Richmond Elks Picnic Today

The Richmond lodge of Elks and their friends will gather at Neptune Beach, Alameda today for the annual outing of the local lodge. Swimming, dancing, sports and a baseball game will be enjoyed during the day.

A feature of the entertainment will be a ball game between the Richmond Firemen and the lodge baseball teams.

Mrs. Delaney Gets Divorce

MARTINEZ, June 1.—MRS. Gertrude F. Delaney of Richmond was today awarded a divorce from Wilbert R. Delaney on the grounds of wilful neglect and failure to provide. She was awarded custody of two children.

U. S. SHRINERS GREETED BY AAHMES

More than 1600 Nobles of the Mystic Shrine, from all parts of the United States were welcomed in Oakland yesterday by the Aahmes Shrine temple, under the direction of Clare D. Horner, Richmond attorney who is potentate of the Oakland group.

As each trainload of visitors arrived, they were greeted by the Aahmes temple and were then taken to the Oakland municipal auditorium where a gigantic ceremonial was in progress.

Late yesterday afternoon the visiting nobles, with their bands, patros and other uniformed bodies, joined Aahmes temple in a parade through the business district of Oakland.

Sheriff R. R. Veale of Contra Costa county was grand marshal of the parade.

Last night the guests were honored at a banquet served in the Scottish Rite temple. So large was the crowd that the diners had to be seated in three shifts.

Late last night the visitors and their hosts left for Los Angeles where they will attend the Shrine convention there. Horner and Dr. W. F. Fraser, of Richmond, were among the officers of the Aahmes temple that are making the trip.

Dr. and Mrs. A. B. Hinkley and Mr. and Mrs. E. A. Hoffman of Richmond, accompanied the members and their wives.

The convention will end Friday and the local delegates will return to their homes here Saturday.

While in Los Angeles they will be housed at the Mayflower and St. Paul hotels.
